

A local 47 year-old floridian named Jared Marshall Peters had been living in the alligator aviary of a zoo in a small town somewhere in the Florida panhandle.

The experts examining the aviary have spotted Jared calmly sleeping in a bush-like decoration on May 27th of 2022. He appears to have been inside the aviary with 6 alligators for *precisely* four days and one hour completely unharmed. As soon as the man was spotted, the examining group has contacted the nearest police department and clinic. One of the arrived paramedics state that "This is in fact the first time I have seen a man get away with 4 days with crocodiles, especially here in Florida."

The locals couldn't spot the missing mr. Peters since this infiltrator is apparently infamous for his adventurous binges across the town. Nor could the zoo visitors passing by spot Jared since the zoo had closed for maintainance of the birds section.

After the police took J. M. Peters out of the aviary, they interviewed him which led to an interesting conversation.

Ironically enough, the interviewed floridian was oblivious about what had happened during said four days. It appears that during his binge, Jared had brought at least 5 bottles of the heaviest alcohol from a nearby store. The man had been

drinking said alcohol for the past 4 days, and as mr. Peters states, "I only remember that I woke up in the aviary, got scared and drank myself to sleep to cancel out the fear. I didn't know where I was or how I got there, but i got terribly scared when I saw the alligators."

After the officers questioned Jared's binge companions, they recieved intel that the group had a bet about who'll get into the zoo first. The drunkards had agreed on climbing over the zoo fence right near the alligator aviary, so after climbing over and stumbling around the aviary, Jared eventually fell into it to then spend these four strangest nights in his life.

Said story is NOT REAL and shouldn't be taken seriously as it is made for completion of an assignment and is created with a comedical touch.
